

My sourdough starter journal

Seven days of watching wild yeast come to life. Fill in one card each day: draw how high your starter rose, sniff it, and write down what you notice.

Before you begin: my prediction

What will happen to the flour and water after a week of feeding it every day? Draw or write your guess here, then check on day 7.

Day 1

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

Draw and describe the fresh mix. What does it smell like right now?

draw the top

Day 2

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

Look very closely. Any tiny bubbles yet? What do you think is waking up in the jar?

draw the top

Day 3

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

First feeding! We throw half away, then add flour and water. What changed since yesterday?

draw the top

Day 4

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

How high did it rise after feeding? Mark the top line in the jar.

draw the top

My sourdough starter journal

Keep going. Your starter is really waking up now.

Day 5

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

Give it a good sniff. Is the smell getting more sour? Describe it in a few words.

draw the top

Day 6

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

How many hours until it doubled today? Is it getting faster than before?

draw the top

Day 7

Date: _____

☐ Checked ☐ Fed

Bubbles: **none** · **some** · **lots** (circle one)

Smells like: _____

☐ Floats ☐ Sinks **My starter is alive!**

Float test! Drop a spoonful in water. Did it float or sink? Is your starter ready?

draw the top

Look back at your week

What surprised you the most?

My starter rose the most on day... _____

Name your starter: _____
